<sup>1</sup> Suspected, but not confirmed. If smelt are observed in Loon or Sea Lion Lakes, please bring a specimen or picture to the Florence County Land Conservation Department in the Courthouse.

<sup>2</sup> Documented by WE Energies in 2006. Heavy rains covered the population with sediments and it has not been observed since. If EWM is observed in the Pine River Flowage, please contact (715) 528-5940.
